Softonic reviewNetflix is a popular and powerful video streaming service to watch your favorite shows, movies, sports, and more. Now, Netflix for Android also comes with a new games feature, which currently supports five mobile games, including Stranger Things: 1984, Stranger Things 3: The Game, Card Blast, Teeter Up, and Shooting Hoops. While Netflix has been getting tough competition from the likes of Live NetTV, Hotstar, and JioTV, its new gaming feature gives it an advantage over competing programs. Netflix offers a range of content options right on your Android smartphone. The company adds new titles on a regular basis, supports subtitles, high-resolution video streaming, cross-platform synchronization, and other important functionalities. Apart from multimedia content, play games on NetflixAs a video streaming and multimedia platform, Netflix download is available for multiple operating systems, including Windows. However, the gaming option is currently only available on Android and iOS. With Netflix, you can play games on your Android smartphone, iPhone, iPad, and other devices. In terms of multimedia content, you can explore a wide range of categories, including Netflix Originals, Sports Dramas, Thriller Movies, Hollywood Movies, Comedy Movies, Action Movies, Family Dramas, and more. In addition to this, the application offers multiple categories for documentaries, infotainment content, TV shows, and Netflix games.How's the interface?Netflix has always been a well-organized app, dividing the entire library into multiple thumbnails. You can also use a 'search' box to directly access your preferred content. Based on your usage, the application gives personalized recommendations, which let you explore a huge catalog of varied content.Netflix for Android has been designed to showcase exclusive content. Large-sized thumbnails for Netflix Originals can be easily accessed, while custom carousels list popular TV shows and movies. Most of the content you notice in the interface is based on your past viewing selections and preferences.Netflix download also supports subtitles in multiple languages. As such, you can easily watch content from countries in Asia, Europe, and more. The documentaries are also categorized on the basis of different subjects of interest.What about Netflix Games?Whether you're an avid gamer or just getting started in the world of online gaming, this new feature from Netflix offers an immersive experience. Netflix Games is the company's attempt to build a huge library of games in multiple categories. While the feature is still in the early days of creation, you'll instantly be pulled in with good visuals, sounds, and storytelling. Most importantly, if you have a Netflix subscription, you don't have to worry about in-app purchases, additional fees, or advertisements.With an updated Android app, members on the smartphone can see a dedicated games tab and a row of games, which can be selected for download. On the tablet interface, members can select games from a drop-down menu and a dedicated games row. With Netflix, games are available in multiple languages. Moreover, the game you play automatically adapts to your language preference set in the Netflix profile. In case your language preference isn't available, Netflix games will run in English on default.With the Netflix application, members can play a wide range of games on multiple mobile devices with the same account. In case you hit the device limit, Netflix will display a prompt, allowing you to sign out of other devices, deactivate them remotely, and free up more slots to enjoy your preferred games.With this new feature, Netflix for Android is also focused on child safety. The company understands the importance of this subject for parents, guardians, and caregivers. Thus, Netflix games aren't available on the kid's profiles. In case you have set up a PIN to prevent your kids from accessing your Netflix profile, the same PIN will be required to log in to the app to play games.Overall, Netflix is making a great attempt to expand its user base and attract a different demographic to the application. With the simple interface, a huge library of multimedia content, subtitles support, and a dedicated games section, Netflix aims to become a one-stop shop for everything related to content. Hopefully, just like its library of multimedia content, Netflix will keep adding new titles to the games section, allowing all kinds of gamers to play their favorite titles right on the Netflix app.Shows, movies, sports, and now gamesIn the last few years, Netflix has become one of the biggest multimedia apps in the world. It won't be wrong to say that the company has perhaps the largest library of content. Whether you want to watch movies, shows, or documentaries, Netflix offers plenty of options to enjoy your favorite multimedia content right on your smartphone. With the Netflix Games feature, the company can become an excellent alternative to Steam, Bluestacks, and other such services.
